FINANCIAL SERVICES

You want your child to attend college. But how are you going to pay for it? What is the CSS Profile? Where do you find the FAFSA form? How do you fill it out?

When it comes to college financing . . . you have questions.

We have the answers.

Advanced planning can make college more affordable. Starting as early as middle school and lasting through graduation, the decisions you make can impact your ability to pay for college and your opportunities for receiving financial aid.

Elite Collegiate Planning specializes in the world of college financial strategy. Using expertise in higher education, personal finance, and risk analysis, ECP creates customized plans to meet your family's goals for affordability and funding.

Our D-SIDE Method® helps personalize your plans, and eliminate any blind spots. We start with **discovery** to get to know YOU. We work with you to get a clear picture of where you are financially and personally, and what you want now, and long term. Then the **strategy, implementation, and delivery** phases get you on your way. We look for solutions that will move you toward your goals while keeping you and

your family protected. Inevitably jobs, goals, and desires, and the markets change over time. For those reasons, we build in the critical **evolution** phase. At least once per year, we conduct a meeting to evaluate and ensure that your plans remain aligned with your goals.

Supplementing the expert financial guidance from ECP, our proprietary CPN portal will lead you through the financial aid process to gather pertinent data, securely upload critical financial documents, monitor progress, and keep you on track to meet important deadlines.

Properly submitting all of the necessary forms and documentation is a critical step in securing financial aid. Our College Planning Network will walk you through the process from the first form to the final award letter.
